FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of State Courts Administrator** assume the proposal will not fiscally impact their organization.

Officials from the **Office of Prosecution Services (OPS)** assume the proposal will not have a significant fiscal impact on the OPS or County Prosecutors.

Officials from the **Department of Insurance, Financial Institutions and Professional Registration** state having reviewed the proposed legislation and having sought the conclusion of the appropriate board(s), they are of the opinion that this proposal, in its present form, has no fiscal impact on their organization.

Officials from the **Department of Corrections (DOC)** state the DOC cannot predict the number of new commitments which may result from the creation of the offense(s) outlined in this proposal. An increase in commitments depends on the utilization by prosecutors and the actual sentences imposed by the court. If additional persons are sentenced to the custody of the DOC due to the provisions of this legislation, the DOC will incur a corresponding increase in direct offender costs either through incarceration (FY 08 average annual cost of \$5,709 per inmate) or through supervision provided by the Board of Probation and Parole (FY 08 average annual cost of \$902 per offender).

The DOC assumes the narrow scope of the crime will not encompass a large number of offenders, the low felony status of the crime enhances the possibility of plea-bargaining or imposition of a probation sentence, and the probability exists that offenders would be charged with a similar but more serious offense and that sentences may run concurrent to one another. Therefore, supervision through probation or incarceration would result in some additional costs, but the DOC assumes the impact would be \$0 or a minimal amount that could be absorbed within existing resources.
